

RASAPOTHULA VEERA VENKATA SURYANARAYANA

JAVA FULL STACK DEVELOPER

9391959490 | rasapothulasurya@gmail.com | Hyderabad, Telangana | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Java Full Stack Developer with hands-on experience in developing scalable web applications using Java, Spring Boot, React.js, Hibernate, and RESTful APIs. Skilled in building secure full-stack applications with JWT authentication, frontend-backend integration, MVC architecture, CRUD operations, and responsive UI development. Developed 3+ projects with expertise in API integration, database management, exception handling, and clean code practices. Strong problem-solving abilities with a passion for scalable application development and modern software engineering.

TECHNICAL SKILLS

Programming Languages: Java, Python, JavaScript

Frontend: React.js, HTML5, CSS3, Bootstrap, Responsive Design

Backend: Spring Boot, JDBC, Hibernate, RESTful APIs

Database: SQL, H2 Database

Tools: Git, GitHub, VS Code, Postman

Core Skills: Problem Solving, OOPs, Debugging, Logical Thinking and Clean Code Practices

PROJECTS

University Management System | Java | Spring Boot | React.js | Hibernate | REST APIs | [GitHub](#) | [Live](#)

- Developed a full-stack University Management System using React.js and Spring Boot, managing 100+ student, professor, and course records with secure JWT authentication and RESTful API integration.
- Designed scalable backend architecture using Spring Data JPA, Hibernate ORM, and relational database mapping, reducing redundant operations and improving data management efficiency.
- Built responsive frontend dashboards with React.js, reusable components, Axios integration, protected routes, and real-time CRUD functionality for course and student management.
- Implemented search/filter APIs, validation, exception handling, and frontend-backend integration following clean code principles and MVC architecture for scalable application development.

Nxt Mart E-Commerce Application | React.js | JavaScript | Context API | REST APIs | [GitHub](#) | [Live](#)

- Developed a responsive e-commerce platform with 20+ dynamic products, category filtering, and real-time cart updates.
- Implemented Context API-based state management, enabling seamless add/update/remove operations with improved UI responsiveness.
- Integrated API-driven architecture and local storage to ensure persistent cart data and optimized user experience.

Jobby App | React.js | JavaScript | REST APIs | [GitHub](#) | [Live](#)

- Built a job search platform with secure JWT authentication and protected routes, supporting 50+ job listings with dynamic filters.
- Implemented advanced filtering (salary, employment type, location) using API-driven rendering and responsive UI design.
- Improved application performance by reducing unnecessary re-renders and optimizing data fetching and state handling.

EDUCATION

Full Stack Development Program | NextWave CCBP 4.0 Academy | CGPA: 9.8 | 2025 – 2026

B. Tech | Mechanical Engineering | Sri Krishnadevaraya University | CGPA: 8.0 | 2022 – 2025

CERTIFICATIONS

- Java Programming — NextWave | [View Certificate](#)
- Spring Boot — NextWave | [View Certificate](#)
- ReactJS — NextWave | [View Certificate](#)
- JavaScript — NextWave | [View Certificate](#)
- Python Programming — NextWave | [View Certificate](#)
- Introduction to Databases — NextWave | [View Certificate](#)
